

Located in the heartland of central Illinois, Lincoln Prairie Behavioral Health Center opened its doors in April 2008 in Springfield, Illinois. In an effort to serve children, adolescents and their families in central and southern Illinois, Lincoln Prairie offers the following services as a resource to Illinois communities:

- 80 Inpatient Psychiatric beds for youth ages 3-17.
- 40 Residential beds for long term placement.
- Array of outpatient programs including Partial Hospitalization Programs and Intensive Outpatient Programs that will compliment and supplement the community needs of Springfield.
- Physicians to monitor medications and treat childhood behavioral and mental health needs.

Lincoln Prairie Behavioral Health Center is committed to working with agencies, schools and other treatment providers to form treatment teams on behalf of the children/adolescents served. Successful community re-integration is the targeted outcome through working collaboratively with community partners.

Facility and Treatment Components include:

- 24 hour free assessments and referrals
- Multi-disciplined Evaluations
- Qualified Mental Health Professionals
- Behavioral, Expressive Therapies
- Case Management
- Individual, Group and Family Counseling
- Parent Training/Support Sessions
- Academic/Classroom Instruction
